

Issue 1: Some projects are not tagged while others are, even of the same resource type.

Next step: Graeme to test new code based on data that includes “to-app”

E.g. for import from repo “to-app”:

▼ 6	tess-snyk/to-app	42	C	222	H	176	M	590	L	View Report	⊕

Ready to import another project?

Secure your entire stack with Snyk

Add project

E.g. for import from repo “tag-demo-service-5”:

- Dockerfile and Kubernetes deployment are imported showing that its not project type causing the issue.
- Some terraform files are imported but not others showing that its not project type causing the issue.
